(Founded in London, 1909.)

THE ILLUMINATING ENGINEER is the official organ of the Illuminating Engineering Society, which was founded in London in 1909, with the object of providing an impartial and international platform for the discussion of problems in illumination. The journal is sent free to all members of the Society.

A glance through this Index will serve to show the great variety of subjects dealt with in the course of the year, and the influential support which the Society receives.

Forms of application for membership and all particulars can be obtained on application to the HON. SECRETARY,

Mr. L. GASTER,
32, Victoria Street, London, S.W.
